- English - Intermediate
- Ukrainian - Native
- Russian - Native

SUMMARY

Motivated and detail-oriented Fullstack Developer with solid knowledge of HTML, CSS, JavaScript, React, and Node.js.

Completed a 10-month Fullstack Development course with hands-on experience in team projects, Agile/Scrum methodology, Git/GitHub collaboration.

Eager to apply problem-solving skills, creativity, and strong teamwork abilities to build user-friendly and efficient applications.

A fast learner, adaptable, and highly motivated to grow in a professional development team.

PROJECT EXPERIENCE

Yoga Bloom
A responsive website project
Role: Team project Lead & Developer

- Coordinated a team of 7 members using Agile/Scrum practices
- Developed responsive UI using HTML, CSS (Flexbox/Grid)
- Set up project on GitHub, resolved build errors, optimized live page performance
- Ensured cross-browser compatibility and mobile-friendly design

ArtistsHub (Music Discovery Platform)-team project
Role: Team project Developer

- Contributed to two sections of the project.
- Implemented responsive layout and functionality using HTML, CSS, JavaScript.
- Collaborated with the team via GitHub.

WORK EXPERIENCE

Owner & Cheesemaker – Homemade Dairy Production (since 2020)

- Established and managed a small-scale cheesemaking business.
- Applied food production technologies such as pasteurization, fermentation, coagulation, aging.
- Maintained high quality standards, hygiene, and consistency of products.
- Handled end-to-end process: from raw milk processing to final product delivery.
- Gained strong skills in organization, problem-solving, and attention to detail.
